Education

Galgotias college of engineering

Btech in computer science and data science

Sep. 2020– May 2024

greater noida, uttarpradesh

St. queen mary's public school

Intermediate

Sep. 2018– May 2019

Agra, uttarpradesh

Experience

Delta6Labs - crypto exchange

Associate Software Developer

Jan 2024 – Present

Noida, uttarpradesh

- Improved Lighthouse performance scores to 90+, optimizing key metrics such as First Contentful Paint (FCP), Cumulative Layout Shift (CLS), and Largest Contentful Paint (LCP), resulting in faster page load times and a more responsive user experience.
- Module Owner for the wallet segregation project, leading a team of 2 developers to remove the copy trading wallet and implement direct fund transfers to the spot wallet for master traders. Responsibilities included gathering requirements, distributing tasks, and ensuring key project milestones were met, resulting in improved transaction efficiency and enhanced user experience.
- Contributed to the implementation of passkey functionality for enhanced security, streamlining user authentication and login processes.

Projects

AdoptaPaw | Video | Github

March 2023

- Developed a web platform connecting users for posting details about street dogs, fostering a seamless adoption process
- User authentication for secure logins. Intuitive interface enabling easy posting of street dog details.
- Utilized React.js and React Router for smooth navigation. Overcame Backend challenges with robust Appwrite implementation.
- Created a user-friendly interface for posting details about street dogs and viewing adoption opportunities. Facilitated the connection of users interested in adopting street dogs.

Git-Detective | Live | Github

October 2022

- Developed a Web app built with javascript that allows the user to search for github users and view their profile info and top repository.
- The web app fetches data from github API and provide user friendly interface to explore github profiles.
- Display name, bio, followers, following and public repos with dark-light mode theme.

Technical Skills

Languages: C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Sublime editor, Github, Bitbucket

Technologies/Frameworks: Chakra-UI, tailwind, React-js, Next-js

Achievements

- Solved 350+ Data structure and algorithm questions on **GFG**
- Ranked 30 on **GFG institute ranking**
- Got 399 rank out of 8000+ candidates on Weekend Contest 66 in coding ninja.

Extra Curricular Activites

- Led and coordinated the school Cricket team, organizing practice sessions and strategizing game plans. Developed teamwork, leadership, and communication skills while representing the school in intra-school tournaments.
- Active member of the college photography club in 2nd year, participating in regular meetings and events
